

VACUUM CONVEYOR: PAPER TRANSPORT

TECHNICAL DATA

Type of conveyor	GTB-700 max conveyor
Drive	Center drive, spur gear motor
Conveyor length	5000 mm
Belt type endless	Perforated

SPECIAL FEATURES

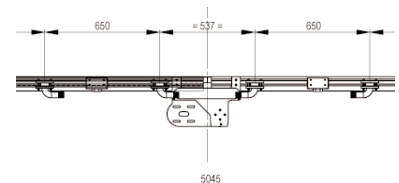

- chamber system in conveyor bed
- constant suction along entire conveyor

PROJECT DESCRIPTION

Vacuum conveyors can be a great solution for packaging and printing applications. This vacuum conveyor for transporting paper sheets features a vacuum pump that draws air through a perforated belt. A chamber system in the conveyor bed allows constant suction along the entire conveyor, securing the paper sheets to the belt for transport to a cutting machine.
