

SYNCHRONOUS VACUUM CONVEYORS

TECHNICAL DATA

Type	SOLTB-V-KR-Z-LA special
Conveyor width	158 mm
Pneumatic connections	10 pair
Orientation	Horizontal
Cleated belts	4 - Width 19 mm
Distance between rollers	2 x 1150 mm

INDUSTRY

Electronics, medical,
pharmaceutical, solar

SPECIAL FEATURES

- Absolute synchronically moving vacuum conveyor belts
- Drive with a motor and a drive shaft
- Vacuum chambers which are integrated in the ground structure

PROJECT DESCRIPTION

Parts are carefully transferred from one vacuum conveyor to a second vacuum conveyor. Synchronicity of the two conveyor belts is an absolute necessity, and is assured by the two belts being driven off one motor and one drive shaft. The clever use of the Quick-set framing systems allows the vacuum plenums to be cleverly integrated into the supporting structure of the system.
