

CONVEYOR WITH INTEGRATED SCALE

TECHNICAL DATA

Type of conveyor	TB40-700 conveyor
Drive	Drum drive Ø 2.48 in (63 mm)
Conveyor width	28.54 in (725 mm)
Usable conveyor width	25.90 in (658 mm)
Conveyor length	4.26 ft (1300 mm)
Max. transport weight	110 lb (50 kg)
Speed	1.21 ft/min (0.37 m/s)
Vertical height	14.56 in (370 mm) above the ground
Substructure	Quick-Set profile framing system, scale

SPECIAL FEATURES

- built-in scale module
- optical sensors
- no visible bolts

PROJECT DESCRIPTION

Montech developed this custom solution that makes the check-in process faster and more efficient. The system features an integrated scale that allows luggage to be weighed at check-in. The compact design is ideal for both short and long conveyor lines and complies with airport standards for personal protection and fire security.
